

Toshiba Satellite A205-S4577 Hard Drive Replacement

This guide details how to remove and replace the hard drive.

Written By: Daniel Johnson

INTRODUCTION

Remove the hard drive if it fails or if it is time for it to be upgraded.

TOOLS:

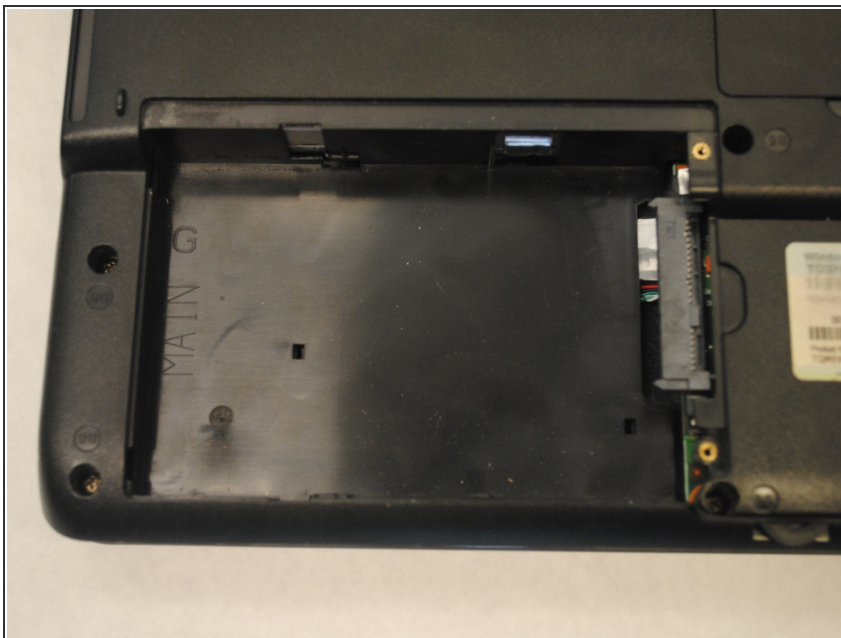

- [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Hard Drive

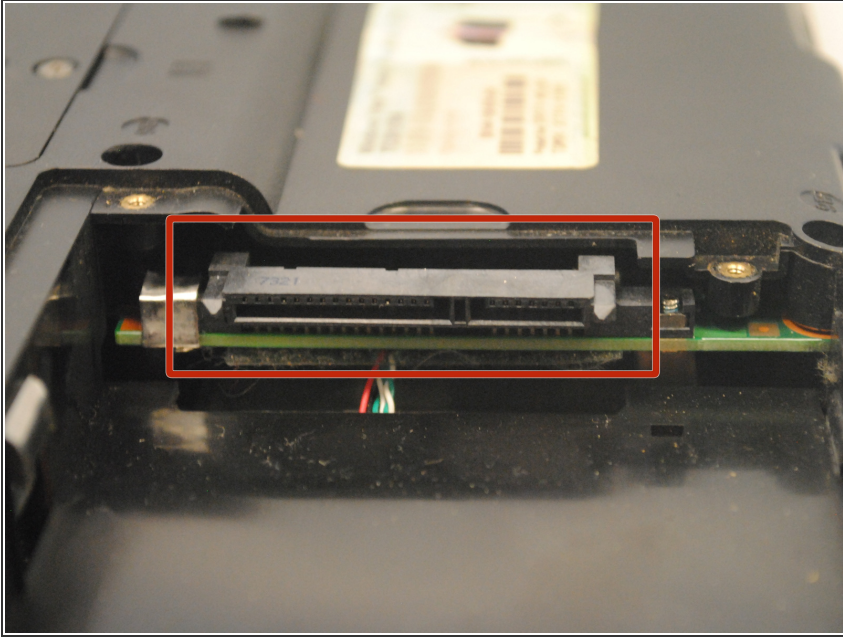

- Remove the two flat-head 4mm screws indicated in the photo with a Phillips 00 Screwdriver.

Step 2

- Remove the hard drive cover.

Step 3

- Place the hard drive in the bay. Plug its cable into the connector slot shown in the photo.

To reassemble your device, follow these instructions in reverse order.
